Beer

L. Macks Ølbryggeri – the northernmost brewery in the world. The brewery was founded in autumn of 1877 by Ludvig Markus Mack. The development has since then gathered speed and in 2012 new, modern premises were built and the capacity was increased. Ludwig Macks vision to supply quality beer to ordinary people is still in the very best of health. Mack will always focus on product development and brew beer that reflects Northern Norway and its people.
